

The Computer society (Jr.) conducted its first event TECHBASH'18 on 3<sup>rd</sup> August,2018. The event began with an enlightening workshop on Blockchain Technology which was followed by QuizIT ; A Mega Quiz consisting of eliminations backed by 7 interesting and mind boggling rounds.

The workshop was delivered by a renowned ethical hacker Mr Sachin Dedhia. Mr. Sachin Dedhia is an independent Cyber Crime Investigator and also a certified Ethical Hacker. He is also the founder of SKYNET SECURE; a company established to promote cyber crime security and internet security awareness. He has successfully conducted over 500 seminars and workshops and enlightened over 50000 students. Adding to these numbers was this workshop conducted by our

society for the students of NM College.

The workshop focused on the various cryptocurrencies existing in the international market and how Bitcoin dominates over all of them. The students also learnt about the power of cryptocurrency and the functioning of the website "The coin market cap". The speaker then answered a number of questions raised by the curious minds attending the workshop.

It was indeed an informative and an interactive workshop which enhanced the knowledge of many tech-savvy minds.

After the workshop, the results of the eliminations which were conducted just before the same were declared. The top 4 teams were selected out of the 50 teams that appeared for the eliminations which tested their logic, mathematical skills and GK. The 4 teams readily faced the first 2 rounds of the quiz:General Knowledge & Current Affairs.

It was now time for a twist! This is when the element of "Wildcard Entry" was introduced in the quiz. The eliminated teams got one last chance to revive their position in the game.

The quiz was continued with 5 teams (incorporating the wildcard team) who now faced the third round excitedly.

The next 2 rounds raised the curiosity and stress of the teams as the quiz was now to end.

7 questions were fired at each team in a span of one minute to unleash the "Rapid Fire" round which wrapped up the quiz or rather heated it up .

There was a flurry and excitement in the room as the winners were declared, the interesting part being that the wildcard team had bagged the first position in the quiz. The winners were then given away their certificates and prizes sponsored by Sundaram ; A leading manufacturer in the paper industry. The winners of the quiz were Vaishvi Thaker and Ishika Shah from FYJC I and the runner ups were Ramanathan Iyer and Manas Meher from SYJC H.

The teams that qualified to the Finals reflected great zeal and spirit and enjoyed the quiz. The audience too showed great enthusiasm by actively participating in the quiz without which the event wouldn't have been such a great success.

It was certainly a great beginning to TECHBASH-18!
